Formal Acknowledgement of North Clackamas School District Student and Family Handbook
Introduction

North Clackamas School District Mission: Preparing graduates who are inspired and empowered to strengthen the quality of life in our local and global communities.

In North Clackamas, parents and the community work in concert with the district to support our students. Students can expect to be challenged to think deeply, solve problems, and enjoy learning in respectful and safe schools. Every person at North Clackamas Schools is committed to keeping students engaged in school and ready to learn. Our intent is to provide the support that is needed to help students make good choices that will lead them through graduation. This handbook outlines how our district works to help students be successful and provides transparency for our students and families to get the help they need.

All schools maintain a school website that contains relevant information and dates for students and families.

Students and parents/guardians should monitor student progress using the ParentVue and StudentVue links on your school website.

If you would like help accessing the websites or links, contact your teacher or school office staff.

This guide was produced through the efforts of cross representational committee following extensive research of best practices and engagement of students, parents, staff and community members.

The North Clackamas School District recognizes the diversity and worth of all individuals and groups. It is the policy of the North Clackamas School District that there will be no discrimination or harassment of individuals or groups based on race, color, religion, gender, sexual orientation, gender identity, gender expression, national origin, marital status, age, veterans' status, or disability in any educational programs, activities or employment.

For more information, go to www.nclack.k12.or.us.

For all policies, go to policy.osba.org/nclack.

Dear North Clackamas Families:

Every new school year brings renewed hope and possibilities. We are committed to student success and our district focus:

**North Clackamas Schools prepares graduates who are inspired and empowered to strengthen the quality of life in our local and global communities. Each student is actively engaged every day for success in life, college, and career.**

We want all students to graduate with many options. We Recognize that reaching this goal requires a commitment from all of us. It takes all of us working together to create safe and inclusive learning environments. It takes intentional effort, dedicated staff and the broader North Clackamas community to make it happen.

This handbook is designed to serve as a helpful resource for navigating the school year. It provides a wealth of information about school system policies, practices, and services available to support and enrich learning.

Family involvement is a leading factor in academic success and we value your collaboration in support of your child’s learning. Communication between school staff and parents is a high priority. When families and schools work in partnership, the opportunities for students are endless. We are fully committed to regularly communicating and working closely with you in support of your child’s success.

My sincere wishes to you and your family for a successful and satisfying educational experience this year.

Sincerely,

Matt Utterback
Our Strategic Direction

In North Clackamas, we prepare graduates who are inspired and empowered to strengthen the quality of life in our local and global communities. Each student is actively engaged every day for success in life, college, and career.

As a student enters a vibrant neighborhood school, a magnet school, or charter program, a joy of learning is fostered, a positive vision for their future is nurtured, their cultural heritage is valued, and their physical, emotional, and social needs are supported. In North Clackamas, safety, respect, and care form the basis for our actions. Students can expect to think deeply, solve problems, and enjoy learning in welcoming and safe schools. Our commitment includes developing the whole child.

Our unique combination of programs provides each student with a distinctive learning experience. Beginning in kindergarten and continuing through high school, students engage in music and physical education and are supported by a comprehensive counseling program. We are home to the largest career-technical education program in Oregon, high-demand bilingual schools, and Clackamas County’s first International Baccalaureate program. In response to changing employer demands, we continue to expand high school electives, advanced college credit offerings, and career-related certificates. Our students are creative, critical thinkers with a strong foundation in reading, writing, math, science, social studies, digital literacy, and the arts.

Exceptional and caring staff actively engages each student. Through relevant and challenging curriculum, North Clackamas educators promote high expectations, cultural understanding, and positive interpersonal communication among students. Our staff sets the pace for high-quality education in Oregon in service to our students and families.

In North Clackamas, parents and the community work in concert with district employees in support of all students. We pursue strong relationships with families and volunteers, and we work to form strategic partnerships with local organizations and businesses. Together, we remove barriers to student achievement and build bridges for a stronger community.

North Clackamas is nationally recognized for outstanding programs supported by the efficient utilization of resources. Our community expects, and school leaders ensure, strong stewardship through accountability and transparent investments that place funding as close to students as possible.

Students are at the heart of North Clackamas Schools, where artists, scientists, teachers, athletes, and community leaders emerge. Each student has the opportunity to express their own voice and follow their own path in reaching their full potential. Our students know they are important, and that we care about them. Each student knows that we are with them. Every single one of them.
Our Purpose
Preparing graduates who are inspired and empowered to strengthen the quality of life in our local and global communities.

Our Goals

- **Student Success**: Advance student learning by focusing on each student’s experience, well-being, and potential.
- **Equity**: Cultivate belonging and inclusion with the expectation of success for each student.
- **Quality**: Ensure consistent, high quality in each program and service.
- **Stewardship**: Develop and manage the resources and assets entrusted to the district.

Our Vision
For each student, a joy of learning is fostered, a positive vision for their future is nurtured. Each student’s cultural heritage is valued, and their physical, emotional, and social needs are supported. Each student is actively engaged every day for success in life, college, and career.

Our Objectives
- Whole student focus
- Culturally responsive learning organization
- Engaging curriculum and instruction
- Post-secondary success
- Effective organizational systems and leadership
- Resource management

Key Performance Indicators
- Strong School District Climate Ratings
- Third Graders Read at or Above Grade Level
- Eighth Graders Algebra Ready
- Tenth Graders on Track with Six Credits
- All Students Graduate High School
- Post Secondary Enrollment Rates Increase
## Section 1: Rights and Responsibilities

The District believes that parent, family, and community involvement is critical as we partner to achieve maximum educational growth for each and every child and prepare them for lifelong learning. The District respects families as important decision makers for their children's education.

It is the responsibility of each member to: Respect race, color, religion, gender, sexual orientation, gender identity, gender expression, national origin, marital status, age, veterans' status, or disability in any educational programs, activities or employment.

Section 2: Student Information

Student and Parent Resources

Each school has key resources to help each student succeed. If you have questions, see your school administrators, office staff or counselors. Every student and parent or guardian is encouraged to develop a collaborative relationship with the staff in the classroom and at school to make the most of their educational experience.

Elementary Schools: Common questions or concerns that staff will help with:
- Making friends
- Safety and security
- Free or reduced lunch
- Emergency food
- Enrichment opportunities
- Helping with homework
- Evaluation and testing
- How to volunteer
- How to get a student involved: sports, leagues, clubs, etc.

Middle School: Common questions or concerns that staff will help with:
- Inclusion in classes, school activities, sports, performing arts, clubs, etc.
- Collaboration and mediation
- Fitting in or image issues
- Nutrition and personal care
- Readiness for high school
- Checking grades and assignments
- Technology resources

High School: Common questions or concerns that staff will help with:
- Getting involved
- Tutoring or learning labs
- Making up credit
- Naviance (online system for college and career)
- Online classes or transfer classes at local colleges
- College placement and testing preparation (SATe/ ACT/COMPASS)
- Accessing career technical courses at Sabin Schellenberg Center
- Course placement
- Accessing mental health supports

District Office: Common questions or concerns that staff will help with:
- Translation services
- Volunteer opportunities
- Evaluation and testing
Wichita Center For Family and Community
6031 SE King, Milwaukie — (503) 353-6091
Visit our website: http://www.nclack.k12.or.us/wichita

North Clackamas students and parents should take advantage of the enrichment classes, community activities and parent services at the Community Services Center at Wichita. There is something for everyone:

- Facilitates Child Care programs at five locations for K-6 students
- Coordinates community education programs (Safety Town & Driver Education)
- Provides building supervision for Wichita Center for Family & Community
- Develops new programs to assist student success
- Parent education
- Student Enrichment opportunities
- Saturday Academy site (see their offerings at https://www.saturdayacademy.org
- Maintains NCSD facility scheduling for all K–8 building

Family Support Center at Wichita Center
(503) 353-5663
For all students and families of North Clackamas School District! Open 5 days per week.

Mission Statement
To improve the well-being of children and their families within the context of the greater community. The North Clackamas Family Support Center brings together health and social services for the benefit of the local community and supports Oregon's effort to improve education.

Our Services: The North Clackamas Family Support Center is a community-based program that provides the following services, referrals and information to individuals and their families:

We also have referrals that can be made by parents, teachers, principals, school counselors, school nurses and community members. We have the following information and referrals.

- Food
- Clothing
- Housing
- Parenting
- Family Safety
- Individual and Family Counseling
- Domestic Violence
- Food Stamps
- Medical Care
- Dental Care
- Oregon Health Plan/Medical Insurance

Donations: Donations of children's clothing, school supplies, hygiene items and non-perishable food items are gladly accepted. For more information about tax deductible donations, please contact our office at (503) 353-5663

Admission of Resident Students
Policy Reference: JECA – Admission of Resident Students
Students of school age who reside within the district attendance area may attend school without paying tuition. Students who turn 19 years of age during the school year shall continue to be eligible for a free and
appropriate public education for the remainder of the school year. The district may admit otherwise eligible students who are not receiving special education and who have not yet attained 21 years of age prior to the beginning of the current school year if they are shown to be in need of additional education in order to receive a diploma. These students may attend school without paying tuition for the remainder of the school year.

**Early Entrance**

**Policy Reference:** IEB Ae-Entrance Age

**Kindergarten:** Any child whose fifth birthday falls on or before September 1 is eligible to enter kindergarten at the opening of school in September of the same year. Proof of birthdate is required at registration. There will be no exceptions to the birthdate requirement for enrollment in kindergarten.

**First Grade:** Any child whose sixth birthday falls on or before September 1 is eligible to enter the first grade at the opening of school in September of the same year. Proof of birthdate is required upon registration.

**Early Entry Exception:** Early entry into first grade will be allowed prior to attainment of age six for any student whose needs would best be met by such placement. The decision regarding early entry to first grade will be based on observation and testing by qualified professional staff of the child's physical, social, emotional and cognitive development in a North Clackamas Schools' kindergarten setting.

**Attendance**

**Policy Reference:** IEAe-Compulsory Attendance

An important part of the student's preparation for adult life is to develop a positive attitude toward attendance through a responsible attendance pattern in school. We believe that every course emphasizes the participation of students and needs their committed, regular presence to allow for the greatest educational success. No classroom activity or experience can ever fully be replicated outside that time and place of its environment. As a result, students need to miss as few classes as possible. Student absences can hamper course progress and lead to increased work for students and teachers in attempting to make up for lost experiences. **Oregon Law (ORS 339.065) requires regular attendance.** Parents or guardians of a child who has not completed the twelfth grade are required to enroll the child and maintain the child in regular school attendance. Regular attendance as defined by Oregon Law is attendance that does not include more than eight (8) unexcused one-half day absences, or the equivalent, in any four (4) week period school is in session. Any student may be excused from attendance by the district school board for a period not to exceed five (5) days in a term of three months or not to exceed 10 days in any term of at least six months. Please be advised that failure to comply with Oregon's compulsory attendance law is a Class “C” violation and may result in a compulsory attendance citation (up to $500.00) with final determination by a court.

**North Clackamas Schools Truancy Process:**

**Step 1:** Truancy warning letter sent to the parent/guardian (and/or phone call).

**Step 2:** Mandatory attendance meeting for the parent/guardian. Interventions to help support improved student attendance will be discussed.

**Step 3:** Truancy citation given to parent/guardian, required court appearance for parent/guardian & court mandated attendance agreement.

**Step 4:** Truancy fine issued to parent/guardian for failing to meet the court’s mandated attendance agreement.
ORS 581-023-0006(4), (6) requires school districts to withdraw from the school's active enrollment, any student who is absent for ten (10) consecutive full days.

Automated Absent Phone Calls will be made to parents/guardians at the following times:

- Elementary: 30-60 minutes after the start of school
- Middle School: Between 11:05-11:35 (one hour later on Wednesday late start)
- High School: Between 10:05-10:50 and at 6:05pm

**Student Fees**

**Policy Reference:** IN – Student Fees, Fines and Charges

The Board recognizes the need for student fees to fund certain school activities which are not funded by local, state or federal funds. It also recognizes that some students may not be able to pay these fees. No student will be denied an education because of his/her inability to pay these supplementary charges; however, no student is exempt from charges for lost or damaged books, locks, materials, supplies and equipment.

Annually, the Board approves all district student fees. All student fees and charges, both optional and required, will be listed and described annually in the student registration packet or in some other written form and distributed to each student. Students will be notified of the due dates for such fees and charges as well as of possible penalties for failure to pay them. In accordance with the law and with district policy restrictions and/or penalties may be imposed until such fees, fines or charges are paid.

**Education Records**

**Policy Reference:** J0/JGBAB – Education Records/Records of Students with Disabilities

The primary reason for the keeping and maintaining of education records for students is to help the individual student in his/her educational development by providing pertinent information for the student, his/her teachers and his/her parents/guardians. These records also serve as an important source of information to assist students in seeking productive employment and/or post-high school education.

The district shall maintain confidential education records of students in a manner that conforms to state and federal laws and regulations. Information recorded on official education records should be carefully selected, accurate and verifiable and should have a direct and significant bearing upon the student's educational development.

The district shall forward educational records requested by an educational agency or institution in which the student seeks to enroll or receive services, including special education evaluation services.

Parents/guardians of all students, including adult students, currently in attendance have the right to:

- Inspect and review the student's records;
- Request the amendment of the student’s educational records to ensure that they are not inaccurate, misleading or otherwise in violation of the student’s privacy or other rights;
- Consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that the student educational record rules authorize disclosure without consent. (See Board policy J0B – Personally Identifiable Information);
- File with the U.S. Department of Education a complaint concerning alleged failures by the district to comply with the requirements of the Family Educational Rights and Privacy Act; and
- Obtain a copy of the district’s education records policy.
The district may not withhold the grade reports, diploma and records of students or former students who owe fees, fines or damages. The district may impose certain restrictions and or penalties until fees, fines or damages are paid.

The district shall give full rights to education records to either parent/guardian, unless the district has been provided legal evidence that specifically revokes these rights. Once the student reaches age 18 those rights transfer to the student.

**Family Educational Rights and Privacy Act (FERPA) - Access To Educational Records**

The Family Educational Rights and Privacy Act (FERPA) is a federal statute affording parents and adult students (students who are 18 years of age or older) certain rights regarding student records. The primary purposes of FERPA are to:

- Protect the confidentiality of student records;
- Provide access to parents to their student’s records; and
- Provide parents an opportunity to challenge the accuracy of student records.

FERPA prohibits a school district that receives federal funds from unauthorized disclosures to third parties of any personally identifiable information contained in student records, without the written consent of the parent or adult student. The statute identifies certain exceptions to the release of information which include the release to other school officials with a legitimate educational interest and release of information pursuant to a subpoena or court order.

**Directory Information**

*Policy Reference: IOA – Directory Information*

Directory information means those items of personally identifiable information contained in a student education record which is not generally considered harmful or an invasion of privacy if released. The following categories are designated as directory information and may be released to the public with the approval of the superintendent or designee:

- Student’s name;
- Student’s photograph;
- Grade level;
- Major field of study;
- Participation in officially recognized sports and activities;
- Weight and height of athletic team members;
- Dates of attendance;
- Degrees or awards received;
- Most recent previous school attended.

Student addresses and telephone numbers may be released to organizations that serve students and families, such as, but not limited to, PTO, PTA and Boosters, upon permission by the superintendent or designee. Parent/Guardian permission is required prior to publication of directory information on district or student publicly accessible Internet web pages.

**Release of Personally Identifiable Information**

*Policy Reference: IOB – Personally Identifiable Information*
Personally identifiable information from education records shall not be released without prior written consent of the eligible student or student’s parent/guardian(s) except as permitted by state and federal laws pertaining to education records.

Personally identifiable information is information contained in a student’s education record which would be considered harmful or an invasion of privacy if disclosed.

**Exclusions**—Parent(s)/guardian(s)/eligible student(s) have the right to request exclusions from any or all directory categories named as directory information or release of information to military recruiters and/or institutions of higher education. The request must be submitted in writing to appropriate school officials by the parent/guardian, student 18 years of age or emancipated student within 15 days of the annual public notice.

At no point will a student’s Social Security Number or student identification number be considered directory information.

**Protection of Pupil Rights Amendment and the Elementary & Secondary Education Act**

The Protection of Pupil Rights Amendment (PPRA) (20 USC Sec. 1232h; 34 CFR Part 98) applies to programs that receive funding from the U.S. Department of Education. PPRA is intended to protect the rights of parents and students in two ways:

It seeks to ensure that schools and contractors make instructional materials available for inspection by parents if those materials will be used in connection with a Department of Education-funded survey, analysis, or evaluation in which their children participate; and it seeks to ensure that schools and contractors obtain written parental consent before minor students are required to participate in any Department of Education-funded survey, analysis, or evaluation that reveals information concerning:

- Political affiliations;
- Mental and psychological problems potentially embarrassing to the student and his/her family;
- Sexual behavior and attitudes;
- Illegal, antisocial, self-incriminating and demeaning behavior;
- Critical appraisals of other individuals with whom respondents have close family relationships;
- Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
- Religious practices, affiliations, or beliefs of the student or student’s parents; or
- Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Parents or students who believe their rights under PPRA may have been violated may file a complaint with the Department of Education by writing the Family Policy Compliance office. Complaints must contain specific allegations of fact giving reasonable cause to believe that a violation of PPRA occurred.

- Parent(s) may remove their student from participation in:
- Activities involving the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information to others for that purpose;
- The administration of any third party (non-Department of Education funded) survey containing one or more of the above described eight items of information; or
Any non-emergency, invasive physical examination or screening that is: (a) required as a condition of attendance; (b) administered by the school and scheduled by the school in advance; and not necessary to protect the immediate health and safety of the student, or of other students.

The District will notify parents in advance of any activity described above.

**Use of Computer, Internet and Other Electronic Systems**

**Policy Reference:** [IFCEB-AR – Personal Communication Devices and Social Media](#)

The Board supports students utilizing appropriate technology in the school environment, as both, an important part of preparing children to live and work in the 21st century, and can significantly enhance the teaching and learning process. Acceptable student use of technology, including personal communication devices, can contribute to a safe, appropriate and focused school community. Student possession or use of personal communication devices on district property, in district facilities during the school day (including district-provided transportation) and while the student is in attendance at district-sponsored activities may be permitted subject to the limitations set forth in policy JFCEB and consistent with any additional school rules as may be established by the principal and approved by the superintendent or designee.

The taking, disseminating, transferring, or sharing of obscene, pornographic, or otherwise illegal images or photographs, whether by electronic data transfer or otherwise (commonly called texting, sexting, emailing, etc.) may constitute a crime under state and/or federal law. Any person taking, disseminating, transferring, or sharing obscene, pornographic, or otherwise illegal images or photographs will be reported to law enforcement and/or other appropriate state or federal agencies.

**Student Email, Internet & Google Apps and Expectations for Use**

[Link to full district agreement](#)

Google Apps for Education is a free service to students in the North Clackamas School District and includes web-based applications, and for grades 6-12, email for use at school and home via the Internet.

Even though many inappropriate sites are blocked for safety, there is always a chance students will be exposed to inappropriate content. School staff will monitor student use when students are at school. Parents are responsible for monitoring their child’s use of the Internet when accessing programs from home. Students are responsible for their own behavior at all times.

**Students** — Acceptable Use, Privacy and Safety Google Apps for Education is primarily for educational use. Students may use Apps for personal use subject to the restrictions below and other school rules/policies which may apply.

**Privacy** — School staff, administrators and parents all have access to student email for monitoring purposes. Students have no expectation of privacy on the Apps system.

**Limited Personal Use** — Students may use Apps tools for personal projects. The following list, though not covering every situation, specifying some of the conduct that violates the acceptable use of technology:

- Use of profanity, threatening, racist, obscene, abusive or harassing language in any correspondence
- Tampering with, or gaining unauthorized access to a district owned device
- Threatening/bullying another person
- Purposely accessing inappropriate websites
- Misrepresentation of schools, staff or students. (Apps, sites, email and groups are not public forums. They are extensions of classroom spaces where student free speech rights may be limited.)
- Unlawful activities
- Personal financial gain (running a web site to sell things)
Data Security
- Student files and email are safe with Apps but it is the responsibility of the student to make backups of important documents.
- Safety
- Students may not post personal contact information about themselves or other people. This includes last names, addresses and phone numbers.
- Students will not meet with someone they have met online without their parent(s)' approval and participation.
- Students will tell their teacher or other school employee about any message they receive which is inappropriate or makes them feel uncomfortable.
- Students are responsible for the use of their individual accounts and should take all reasonable precautions to prevent others from being able to use their account. Under no conditions should a user provide his or her password to another person.

Digital Responsibility
- Treat others kindly. It hurts to get a mean email just like it hurts when someone is mean in the school hallway.
- Be kind when using email or making a post on a forum, collaborative document or web page. Everyone will see what you write so think before you type.
- Be careful with what you say about others and yourself. It is never acceptable to use profanity, threatening, racist, obscene, abusive or harassing language in email correspondence, website or on collaborative documents.
- Respect the rights of copyright owners. Copyright infringement occurs when an individual inappropriately reproduces a work (text, pictures, video, music, etc.) protected by a copyright.
- If a work contains language specifying acceptable use of that work, the user should follow the expressed requirements. If the user is unsure whether or not they can use a work, they should request permission from the copyright owner. Any time a student uses another person's pictures, video, music or writing, a citation should be present. See the Creative Commons website for specifics.
- Students have First Amendment rights to free speech. Your rights can be limited in school, though. If you post something via email or on a school web page which disturbs the learning environment in your school, your right of speech may be limited.
- School websites, email and groups are for educational use and are not considered public forums for debating ideas. This means a school has the right to limit student speech that disturbs the learning process in these areas.

Consumer Safety (Advice for students and parents)
- Never open an email from an unknown or questionable source or click on links in an email that looks suspicious.
- Spam is unwanted advertising sent by email. Never reply to spam and never do business with a company that sends spam. Use the "report spam" button to get rid of spam.

Access Restriction
- The district maintains the right to immediately withdraw the access when there is reason to believe violations of law or district policies have occurred.
Public Complaints

Complaint Procedure: KL-AR – Public Complaint Procedure

Complaints lodged by constituents, parents/guardians, students or staff regarding a problem or difficulty related to the district educational processes, services, personnel and/or operational actions and/or decisions, may be made formally or informally. If an individual wishes to file a formal complaint, that complaint must be filed in writing to the appropriate administrator or supervisor. The complainant should utilize the complaint form found in administrative regulation KL-AR(2) – Complaint Form.

The district shall adhere to legal and contractual and relevant policy mandated in processing complaints. A complainant may only bring an individual complaint forward regarding their own situation or, as appropriate, on behalf of their own student. Complaints cannot be filed on behalf of someone else’s circumstances or on behalf of a group. Complaints unrelated to an employee's performance shall be processed by the district employee most familiar with the subject matter and in accordance with any applicable district policy. To bring about resolution in a timely manner, complaints will be processed regarding situations occurring in the past 12 months or current school year.

Complaints in these areas must be filed under the following:

Harassment: GBN/JBA, GBN/JBA-AR, GBNA, GBNA-AR, JFCF, JFCF-AR; Instructional Resources/Instructional Materials: IIA, IIA-AR; Compliance with Standards: LGA.

Early Childhood Evaluation Birth to Kindergarten/Child Find

Policy Reference:
IGBAG and IGBAG-AR – Special Education – Procedural Safeguards
IGBAH – Special Education – Evaluation Procedures
IGBAJ – Special Education – FAPE (Free Appropriate Public Education)

Educational services for children with disabilities are mandated by Oregon and federal law. North Clackamas School District provides educational programs and services for eligible children kindergarten through high school. Appropriate services for each eligible child are based on his or her disability and Individualized Education Plan (IEP) or Section 504 Accommodation Plan. If your school age child (5 years to 21 years) has a disability or you believe your child may have a disability, please notify the special education teacher or school psychologist in your school. Contact Early Learning Testing and Evaluation Center at 503-353-5265.

Section 504

Section 504 of the Rehabilitation Act of 1973 is an Act that prohibits discrimination against persons with a disability in any program receiving federal financial assistance. The Act defines a person with a disability as anyone who:

- Has a mental or physical impairment which substantially limits one or more major life activity (major life activities include activities such as caring for oneself, performing manual tasks, walking, seeing, hearing, speaking, breathing, concentrating, thinking, learning and working);
- Has a record of such impairment; or
- Is regarded as having such impairment.

In order to fulfill its obligation under Section 504, the North Clackamas School District recognizes a responsibility to avoid discrimination in policies and practices regarding its personnel and students. No
discrimination against any person with a disability will knowingly be permitted in any of the programs and practices in the school system.

The school district has specific responsibilities under the Act, which include the responsibility to identify, evaluate, and if the child is determined to be eligible under Section 504, to afford access to appropriate educational services. If the parent or guardian disagrees with the determination made by the professional staff of the school district, he/she has a right to a hearing with an impartial hearing officer. If there are questions, please feel free to contact your child's principal or the school 504 Coordinator or the District's Section 504 Program Manager, Rob Holloway, 503-353-6138.

**Section 504 Parent/Student Rights in Identification, Evaluation and Placement**

The following is a description of the rights granted by federal law to children with disabilities who are eligible under Section 504. (29 u.S.C. 706(7), Sec. 794; 34 C.F.R. Part 104, 20 u.S.C. Sec. 1232g; 34 C.F.R. Part 99).

The intent of the law is to keep parents fully informed concerning decisions about their child and to inform them of their rights if they disagree with any of these decisions.

Parents have the right to:

1. Have their child take part in, and receive benefits from public education programs without discrimination because of his/her disabling condition;
2. Have the school district advise the parents of their rights under federal law;
3. Receive notice (not necessarily in writing) with respect to identification, evaluation, or placement of their child;
4. Have their child receive a free, appropriate, and public education. This includes the right to be educated with non disabled students to the maximum extent appropriate;
5. Have their child educated in facilities and receive services comparable to those provided to non-disabled students;
6. Have their child receive accommodations to allow their child an equal opportunity to participate in school and school-related activities and receive regular education or special education and related aids and services designed to meet the individual need of students with disabilities as adequately as the needs of non-disabled students are met;
7. Have evaluation, educational, and placement decisions made based upon a variety of information sources, and by a group of persons who know their child, the evaluation data, and placement options;
8. Have transportation provided to and from an alternative placement setting at no greater cost to the parents than would be incurred if their child were placed in a program operated by the district;
9. Have their child be given an equal opportunity to participate in nonacademic and extracurricular activities offered by the district;
10. Examine all relevant records relating to decisions regarding their child's identification, evaluation, educational program, and placement;
11. Obtain copies of education records at a reasonable cost unless the fee would effectively deny the parents access to the records;
12. Have a response from the school district to reasonable requests for explanations and interpretations of their child's records;
13. Request amendment of their child's educational records if there is reasonable cause to believe that they are inaccurate, misleading or otherwise in violation of the privacy rights of their child. If the school district refuses this request for amendment, it shall notify the parents within a reasonable time, and advise them of the right to a hearing;
14. Request mediation and/or an impartial due process hearing related to decisions or actions regarding their child’s identification, evaluation, and educational placement. The parent and the child may take part in the hearing and have an attorney represent them. Hearing requests must be made to the State Superintendent of Public Instruction, Oregon Department of Education, Public Service Building, 255 Capitol NE, Salem, Oregon 97310-0203, pursuant to OAR 581-015-2390 through 2395;
15. Ask for payment of reasonable attorney fees if the parents are successful on their claim;
16. File a local grievance with the District Section 504 Program Manager, Rob Holloway, 503-353-6138.

Alternative Education
Policy Reference: IGBHA – Alternative Education Programs

The North Clackamas School District provides a comprehensive educational program designed to meet the needs of all students. Under certain circumstances, the District is required by law (ORS 339.250[9]) to “consider and propose alternative programs of instruction and counseling for the pupil.” The circumstances in which that must occur are:

1. Upon the occurrence of a second or any subsequent occurrence of a severe disciplinary problem within a three-year period;
2. When the District finds a student’s attendance pattern to be so erratic that the student is not benefiting from the educational program;
3. When the District is considering expulsion as a disciplinary alternative;
4. When a student is expelled;
5. When a student’s parent/guardian or emancipated student applies for release from compulsory attendance;
6. In the first four situations identified, the District is obligated to pay a portion of the cost of the alternative program.

If a resident student or a student transferring into the District is expelled for a weapons violation, pursuant to Section (6) of ORS 339.250, the District will deny that student admission to the school's regular program for at least one calendar year from the date of the expulsion.

In addition, the District will not offer an alternative education program to students expelled for weapons violations pursuant to Section (10) of ORS 339.250 for at least one calendar year from the date of the expulsion subject to modifications by the Superintendent on a case-by-case basis.

Any person or organization requesting the establishment of new, approved alternative programs shall do so in writing to the superintendent.

Non-School Materials Distribution
Policy Reference: KJA and KJA-AR – Information Distribution

The District recognizes that many organizations provide additional opportunities for students that foster growth, development, knowledge and understanding in our community. In an effort to cooperate with community organizations and convey useful information to students, families and staff, the District allows the distribution of certain materials by non-school organizations. The District does not endorse any event, service or point of view contained in the information it distributes to students through this policy. The District encourages parents to assist their children in making choices appropriate for them.

Materials submitted for review must offer educational and/or extra-curricular learning opportunities for children, families, and/or staff.
Distribution by students — Students must request and receive authorization from the school principal to distribute petitions, handouts, leaflets and other literature on District property as appropriate under District policies and regulations. Students may not distribute materials during class time. Students who edit, publish or distribute handwritten, printed, electronic or duplicated matter among their fellow students within the schools must assume responsibility for the content of such publications.

Title I Schools Notification

In compliance with federal law and Oregon Department of Education guidelines, the District shall ensure that parents are provided information, in an annual school-based meeting, regarding their school's participation in the Title I program and its requirements. Parents of participating students shall be informed of their right to be involved in the development of their school's Title I plan and school-parent compact. This policy shall be reviewed annually by the District's Elementary and Secondary Education Act Committee and updated periodically to meet the changing needs of parents and schools.

Military Recruitment

The Federal Elementary & Secondary Education Act requires high schools give military recruiters the same access to high school students as is provided generally to post-secondary institutions or to prospective employers of those students. Section 9528 of the act requires each local school district to provide, on request by a military recruiter or an institution of higher education, access to the names, addresses, and telephone listings for high school students. A high school student or parent may request that such information NOT be released for their student without prior written parental consent.

PACE: Parenting-Academics-Careers-Employment

A resource for teen parents in the North Clackamas School District, PACE has been serving pregnant and parenting teens since 1995, serving approximately 30 teen parents in any given year. Any resident student in North Clackamas School District who is pregnant or a parent may access the PACE program, no matter what high school they are attending.

The program on the Sabin campus offers on-site daycare for students' children and an academic environment designed to prepare students for life after high school (including opportunities for credit recovery, access to Sabin Schellenberg Professional Technical Center electives, and courses in parenting and independent living skills). All core requirements are met through a small, dedicated staff, and class sizes are smaller to increase individualized attention and support.

PACE works with a variety of community partners to support our students with resources to help them become successful parents and members of society. Our partners include: Milwaukie Covenant Church, Young Lives, Squires PDX, Rotary, Baby Link, C-Tec Youth Services, and many more.
ALL STUDENTS GRADUATE PREPARED
In 2010, Oregon adopted higher K-12 standards in English Language Arts and Math to ensure all students move from grade to grade with the academic knowledge and skills necessary for success beyond high school. Because we raised the bar for what we expect students to know and be able to do, we have also changed the way we measure student progress through our state tests, known as Smarter Balanced.

Why does participation matter?
While no single test can give a complete picture of your child’s progress, having your child take the statewide tests provides educators and administrators with information about what educational approaches are working and where additional resources are needed. Your child’s participation is important to ensure schools and districts receive the targeted resources they need to help all students succeed.

Description of rights
House Bill 2655 permits parents and adult students to annually opt-out of Oregon’s statewide summative tests in English Language Arts and Math by submitting an annual form to the school the student attends. Schools will provide parents with the annual form for 2019-20 at least 30 days prior to the start of testing. Visit this link to learn more about House Bill 2655: http://tinyurl.com/OR-HB2655.

OREGON’S STATE TESTS
- Challenge your child to think critically and apply his or her knowledge to real-world problems
- Go beyond multiple choice and ask your child to explain his or her answers
- Act as a snapshot of your child’s progress and may be considered along with other pieces of information to determine your child’s academic success
- Help identify schools and districts that need additional supports to ensure more students are meeting higher standards

Section 3: Safe Learning Environments for Students

North Clackamas Schools Philosophy of Inclusion

As each student enters a North Clackamas school, dreams are nurtured, history and cultural heritage are celebrated, love of learning is fostered, educational, physical, emotional and social needs are supported.

The North Clackamas School District is a community of learners committed to equity and the success of each student. This commitment means that student success will not be predicted nor predetermined by race, ethnicity, family economics, mobility, language, marital status, gender, sexual orientation, gender identity, disability, initial proficiencies or religion.

The principle of equity goes beyond formal equality where all persons are treated the same. Instead, equity fosters an inclusive and barrier-free environment in which everyone fully benefits. The district applies this principle of equity to all policies, programs, operations, practices and resource allocations. All students will have access and opportunity to a high-quality education. The North Clackamas School District is committed to the following foundational beliefs:

- Each student can learn with adequate support at the highest levels when all staff provide equitable access and opportunity for learning, and hold each student to high expectations;
- Maximizing the academic achievement of every child requires allocating resources equitably, not necessarily equally;
- Everyone in the district will act to eliminate disparities to prepare all students for college and career and;
- An inclusive and welcoming environment plays a critical role in supporting a child's educational goals.

To realize our beliefs the North Clackamas School District will:

1. Systematically use district-wide and individual school level data, disaggregated by race, ethnicity, language, special education, gender, sexual orientation, socioeconomic background and mobility to inform district decision-making;
2. Provide students with equitable access to high quality curriculum, programs, teachers and administrators, extracurricular activities and support services, even when this means differentiating resource allocation;
3. Affirm the identity of each student, acknowledge and celebrate differences to create a sense of belonging for each student; District Equity Policy e IKAAA/GCCB/GDCB 1-2
4. Incorporate the voice, culture and perspectives of students, staff, families and communities that reflect student demographics to support and enhance student success;
5. Identify and counteract biased practices that perpetuate achievement disparities and lead to disproportionate levels of student success;
6. Provide multiple and varied opportunities in order to meet the needs of the diverse student body;
7. Actively recruit, hire, and retain staff that reflect student demographics at all organizational levels and support employees to engage in culturally responsive practices and delivery of quality instruction and service; and
8. Ensure that the North Clackamas District Strategic Plan embraces the principle of equity as a key feature and presents measurable outcomes to prepare all students for college, career and life.
Athletic Code of Conduct

The Athletic Code of Conduct applies to all students participating in a North Clackamas School District secondary athletic program. This code applies throughout all twelve (12) months of the calendar year for all years of the student-athlete's attendance in a North Clackamas high school. During that time, the code applies 24 hours each day, seven days a week. It applies to in-school and out-of-school conduct related to drug, alcohol or tobacco use.

Drugs are defined as any illegal drug, including narcotics, hallucinogens, amphetamines, barbiturates, marijuana, anabolic steroids, and other substances made illegal by federal law, as well as the misuse or unauthorized use or possession of prescription drugs. Tobacco is defined as the use or possession of any tobacco product, including chewing tobacco.

Students must meet the following requirements in order to participate in school sponsored athletics or activities:

**Eligibility** — Students who plan to be in athletics must have passed five credits in the prior semester with a minimum of 2.0 GPA and no “Fs;” and must also be passing five credit classes (study hall, excused, and some assistant periods are NOT credit classes).

**Physicals, Emergencies, Insurance** — All participants must have on file: 1) a physical, 2) an Emergency Procedure Card, and guidelines for Athletic Participation signed by parent/guardian. These must be completed prior to any participation in athletics, including practices. Participants must present evidence of either private or school medical insurance.

**Attendance** — Participants must be in attendance one-half day (two-block periods) in order to practice or play in a contest. Exceptions must be cleared through the principal or designee.

Closed Campus

Students are required to remain on school property unless they have parent approval or pre-arranged permission on file in the school office. Each school may have additional procedures in place. Check with your school’s office for details. In addition, visitors are required to check in at the Main Office when visiting a school. Students should immediately report any non-student visitor who is not clearly identifiable with a District ID or Visitor badge.

Student Vehicles

Student vehicles used for transportation to and from school may be parked on school property in designated areas only. Any student driving a motorized vehicle must be licensed to operate that particular vehicle and must have appropriate vehicle liability insurance under Oregon minimum standards. All state and local traffic laws and local school campus vehicle regulations must be obeyed. Parking privileges will be subject to the specific requirements of this policy and any other applicable policy, fees and/or rules of the district. Privileges may be revoked by the principal for violations of Board policies, administrative regulations or school rules. The district assumes no responsibility or liability for unauthorized use of vehicles on school property or for school activities.

The superintendent may, under ORS 339.254, make a request to the Oregon Department of Transportation (ODOT) for the suspension of a student’s driving privilege or the right to apply for a driving privilege on the basis of conduct as outlined in Policy JHFDA.
Accidents/Injury
School personnel will seek emergency medical assistance, including ambulance transportation, when such services appear warranted. When services are secured by school personnel, the cost of the services remains the family's responsibility. School personnel will attempt to contact the family or representatives as indicated on the emergency procedure card. It is the family's responsibility to keep the emergency contact information current. Please call, email or write your school office with information changes.

North Clackamas School District does not provide student accident insurance, but does make the option available for families to purchase student accident insurance if they wish to supplement their current health insurance.

Visitors/Volunteers/School Grounds/Trespass
Policy Reference: KK – Visitors to District Facilities

Community members who voluntarily contribute their time and talents to the improvement and enrichment of the public schools’ instructional and other programs are valuable assets. The Board encourages constructive participation of individuals and groups in the school to perform appropriate tasks during and after school hours under the direction and supervision of professional personnel.

Any person authorized by the district for volunteer service into a position having direct contact with students, without ongoing supervision by district staff, will be required to undergo a criminal records check. GCDA/GDDA – Criminal Records Checks/Fingerprinting

Please contact your child's school or the District Volunteer Coordinator at (503) 353-6019 to see how you can volunteer.

Public Conduct on District Property:
Policy Reference: KGB – Public Conduct on District Property

Persons having no legitimate purpose or business on district property or violating or threatening to violate the following rules may be ejected from the premises or issued a trespass citation, excluded from district approved activities temporarily or permanently and/or referred to law enforcement officials. All North Clackamas Schools and properties are tobacco, drug and alcohol free.

Custodial/Non-Custodial Parents
The District encourages parents to be involved in their child's education and, unless otherwise ordered by the courts, an order of sole custody on the part of one parent shall not deprive the other parent of the following:

- Receiving and inspecting school records and consulting with school staff concerning the child's welfare and education; and
- Authorizing emergency medical, dental, psychological, psychiatric or other health care for the child if the custodial parent is, for practical reasons, unavailable.

It is the responsibility of the parent with sole custody to provide any court order that curtails the rights of the non-custodial parent at the time of enrollment or any other time a court order is issued.

Non-custodial parents will not be granted visitation or telephone access to the child during the school day. The child will not be released to the non-custodial parent without written permission of the custodial parent or in compliance with parenting time obligations outlined in a court order provided to the District.
In the case of joint custody, the District will adhere to all conditions specified and ordered by the court. The District may request in writing any special requests or clarifications in areas concerning the child and the District's relationship and responsibilities.

**Dress and Grooming**

Responsibility for dress and grooming rests primarily with students and their parents; however, the district expects student dress and grooming to meet standards which insure that either of the following conditions do not exist:

- Disruption or interference with the classroom learning environment
- Threat to the health and/or safety of the student concerned or of other students.

Students who represent the school in a voluntary activity may be required to conform to dress and grooming standards and may be denied the opportunity to participate if those standards are not met.

The district’s dress code is established to promote appropriate grooming and hygiene, prevent disruption, and avoid safety hazards. Dress should be appropriate for the work students do in each classroom setting. Students have the right of freedom of expression in their dress as long as it is not inappropriate, puts any student in danger, disrupts the classroom environment, and does not interfere with another student(s) access to an education. Dress should also appropriately cover the body. Dress should be suitable for the classroom environment.

Students participating in an extracurricular activity or classroom where specific safety issues or standards exist, may be required to meet additional dress and grooming standards approved by the principal and may be denied the opportunity to participate if those standards are not met.

The following are inappropriate for school:

- Revealing clothing - undergarments must be covered; the navel and midsection must be appropriately covered.
- Jewelry or other accessories that are unsafe or have weapon potential (i.e., spiked jewelry, chains, etc.)
- Clothing that is associated with gang affiliation, promotes intimidation, racism, sexism, violence, or illegal activities are prohibited.
- Tattoos/body art that would be considered inappropriate must be covered.
- Items such as masks or dark glasses that cover the face should typically not be worn in school.
- School staff has the right to consider any other disruptive or unsafe clothing or accessories as unacceptable.

Students found in violation of these standards may be subject to disciplinary consequences. A student will be asked to change the inappropriate clothing. If the student does not have extra clothing to change into, they will be asked to call home and have parents or guardians bring appropriate clothing.

**Emergency Management**

Maintaining a safe school environment is a priority of the North Clackamas School District. Many factors are critical to fostering a safe school climate. We collaborate with our community partners to review and enhance the District’s safety practices, emergency readiness and response.

- [Emergency Management Resources](#)
Emergency Closure

In case of hazardous or emergency conditions, the superintendent may alter district and transportation schedules as are appropriate to the particular condition. Such alterations include closure of all schools, closure of selected schools or grade levels, delayed openings of schools and early dismissal of students. All Portland area media outlets including TV stations, KATU (2), KOIN (6), KGW (8), KPTV (12), radio stations, and FlashAlert.net will broadcast information about emergency closures. Parents can also check the North Clackamas School District's main website for updates on weather or emergency closures.

Student/Parent Reunification

Circumstances may occur at the school that require parents to pick up their students in a formalized, controlled release. The process of controlled release is called a reunification and may be necessary due to weather, a power outage, hazmat or if a crisis occurs at the school. The Standard Reunification Method is a protocol that makes this process more predictable and less chaotic for all involved.

Because a controlled release is not a typical end of school day event, a reunification may occur at a different location than the school a student attends. If this location is another school, then those students may be subject to a controlled release as well.

Notification — Parents may be notified in a number of ways. The school or district may use its broadcast phone or text message system.

In some cases, students may be asked to send a text message to their parents. A reunification text message from a student may look something like this: “The school has closed, please pick me up at 3:25 at the main entrance. Bring your ID. “

Parent/Guardian Expectations — If a parent or guardian is notified that a controlled release and reunification is needed, there are some expectations that parents or guardians should be aware of. First, bring identification. That will streamline things during reunification. Second, be patient. Reunification is a process that protects both the safety of the student and provides for an accountable change of custody from the school to a recognized custodial parent or guardian.

What if a parent can't pick-up their student? When a parent can't immediately go to the reunification site, students will only be released to individuals previously identified as a student's emergency contact. Otherwise, the school will hold students until parents can pick up their student.

What if the student drove to school? There may be instances where a student may not be allowed to remove a vehicle from the parking lot. In this case, parents are advised to pick up the student. In some circumstances, high school students may be released on their own.

Emergency Information

The school must have a way to reach you in an emergency. It is the responsibility of the parent/guardian to keep emergency contact information up-to-date.
When the District calls for a Two-hour Delay, Transportation will run the published Snow Routes with all buses delayed two hours in the morning for student pick up. For example, if your student's stop time is 8:05 AM, the stop time for a 2-hour delay will be 10:05 AM.

Health Services

Policy Reference:

- **JHCAe - Student Medical/Physical Examinations and Vision Screening/Eye Examinations**
- **JHCC - Communicable Diseases**
- **JHCD/JHCDA-AR - Administering Prescription/Non-Prescription Medication to Students**
- **JHCDA - Administering Prescription Medication to Students**

Student Health Services

The District will provide registered nurses or school nurses, and will maintain a prevention-oriented health services program as provided in Board Policy JHC. School-based health and wellness centers will provide all health services in accordance with Oregon laws and best medical practices.

Health Information

Health information may be shared with school personnel on a “need to know” basis when information about your child's health is necessary for school personnel to care for and respond to your child's needs. It may be necessary to best serve the interests of your child that you sign a release of information between the school district and health care providers.

Immunizations and Oregon Law

Oregon law requires that students have a current school immunization record or an exemption at school. Students not in compliance with the immunization requirements may not attend school and will be excluded.

School Nurses

While parents retain primary responsibility for the overall health of their children, during school they are assisted by the district's state-certified nurse, teachers, and administrators. The nurse, in collaboration with other educators, utilizes school health programs and services to contribute significantly to the attainment of full health and educational potential of each student. The district shall provide, at a minimum, nurse staffing in accordance with state requirements.

Medical/Physical Examinations

Policy Reference: **JHCA – Student Medical/Physical Examinations and Vision Screening/Eye Examinations**

The district recommends medical/physical examinations for each student entering district schools in kindergarten or students new to the district. Students in grades 6 through 12 are to have physical examinations performed prior to participation in extracurricular sports. The examination should be performed no earlier than March 15 of the preceding school year. Students who continue to participate in extracurricular sports in grades 7 through 12 shall be required to complete a physical examination once every two years, thereafter. Student medical/physical examinations will be waived for students whose religion opposes such examinations. Such written requests must be on file at the school prior to the student practicing and/or participating in interscholastic sports.
Dental Services

Policy Reference: JHC – Student Health Services and Requirements
As part of the district's dental health program, students may receive oral health supplies and presentations on how to care for their teeth. In addition, students may receive a dental health screening by a dental health professional. Parents will be notified by the school when such services are scheduled.

Vision and Dental Screening, Eye Examinations

Policy Reference: JHCA – Student Medical/Physical Examinations and Vision Screening/Eye Examinations
The parents of a student who is 7 years of age or younger and is beginning a public education program with the district for the first time shall, within 120 days of beginning the education program, submit a certification that the student has received: 1. A vision screening or eye examination; and 2. A dental screening or examination and 3. Any further examination, treatments or assistance necessary. Parents will be notified by the school when such services are scheduled within the school district.

Medication Administration at School

Policy Reference: JHCD/JHCDA-AR – Administering Prescription/Nonprescription Medication to Students
The District recognizes that administration of medication to students may be necessary at school. All requests to administer medication to a student shall be made by the parent in writing, including written instructions for the administration of the medication. Medication provided to schools must be accompanied with original bottle /medicine package. “Nonprescription medication” means only commercially prepared, non-alcohol-based medication to be taken at school that is necessary for the student to remain in school. This shall be limited to eyes, nose and cough drops, antibiotics, anti-inflammatories and antacids that do not require written or oral instructions from a physician.

Self-Medication
Self-medication is not allowed in grades kindergarten through eighth grade except in cases where a student must carry such medication on his/her person for immediate access during a medical emergency.

In grades 9-12, self-medication of prescription medication is not allowed except in cases where a student must administer the medication during a medical emergency. Self-medication of non-prescription medication may be allowed. Please refer to Policy JHCD-AR for the specific requirements.

Contagious Conditions
To decrease the spread of contagious conditions in schools:

- Tell the school if your child has a contagious disease.
- Do not send your child to school with a rash or a fever.

Nutrition Services Department
The North Clackamas School District's Nutrition Services department nourishes minds by providing appealing, nutritious meals for students while they are in school. Good nutrition is essential in the learning process, and their mission is to help ensure students are ready to learn. Information regarding menus, meal accounts, and the USDA Free and Reduced Meal program can be found at: http://www.nclack.k12.or.us/nutrition or by contacting your individual school.
Food from Home
Homemade food will not be allowed in the classroom due to the risk of foodborne illnesses, the potential for allergic reactions, and the inability to ensure accurate nutritional facts regarding calories, carbohydrates, etc. For student celebrations and other occasions, parents/guardians (families) are asked to communicate plans ahead of time with your student's teacher/advisor, to see if allowed. If food is provided by parents/guardians (families) for these occasions, they must be only store-bought items and individually wrapped.

Transportation Services
The District is responsible for children while on the bus, and our first concern is for the safe transportation of each student. Not following the posted instructions governing riding school buses may forfeit the student's privilege to ride District provided bus transportation and may result in additional disciplinary consequences.

The safe transportation of our students is a responsibility the North Clackamas School District takes very seriously. Uninvited people entering our buses may pose a threat to our ability to keep our students safe. Therefore, we cannot allow uninvited students or adults, including parents, to board our buses. Uninvited people entering our buses could face arrest for Interfering with Public Transportation ORS 166.116 and/or Disorderly Conduct ORS 166.025.

While riding in district operated vehicles, students are required to comply with the district's policy. Students must have written permission from a parent, and/or a building administrator or designee to leave the bus at any location other than their regularly assigned bus stop or ride a bus different from their assigned bus. Transportation administrators, with input of school bus drivers shall recommend to the building administrator or designee suspension of bus riding privileges for serious violations which compromise the safety of students and or the bus driver.

Questions or concerns regarding student behavior can be addressed by school administrators at the school the student(s) attend. Questions or concerns regarding Transportation staff, drivers or bus routes can be addressed by Transportation administrators at 503-353-6150.

Harassment and Bullying
Policy Reference:
JFCF – Hazing/Harassment/Intimidation/Bullying/ Menacing/Cyberbullying/Teen Dating Violence/Domestic Violence – Student
JFCM – Threats of Violence
The District is committed to providing a safe, positive and productive learning environment for all students. Parents, students and school staff collaborate to address bullying issues in schools. The District will not tolerate hazing, harassment, intimidation, menacing, bullying and cyberbullying, as well as teen-dating violence by students in schools or school campuses, school sponsored buses, school-related or school-sponsored events, or through the use of data or computer software that is accessed through a computer, computer system, or computer network. The physical location or the time of access of a computer-related incident may not be raised as a defense in any disciplinary action initiated pursuant to this policy when such incident has the effect of substantially interfering with or disrupting another student or employee's rights. Harassment and bullying means any act that substantially interferes with a child's education that has the effect of physically harming the student or their property, placing a student in fear of physical harm to themselves or their property, or creating a hostile learning environment.
The District is committed to promoting healthy relationships and a safe learning environment. To this end, student threats of harm to self or others, threatening behavior or acts of violence, including threats to severely damage school property, shall not be tolerated on district property or at activities under the jurisdiction of the district or creates substantial disruption of the education process. Students shall be instructed of the responsibility to inform a teacher, counselor or administrator regarding any information or knowledge relevant to conduct prohibited by this policy. Parents/Guardians and others will be encouraged to report such information to the district. Staff shall immediately notify an administrator of any threat, threatening behavior or act of violence he/she has knowledge of, has witnessed or received. All reports will be promptly investigated.

Harassment, intimation or bullying: Any act that substantially interferes with a student's educational benefits, opportunities, or performance that takes place on or immediately adjacent to school grounds, at any district-sponsored activity, on district provided transportation or at any official district bus stop, that may be based on but not limited to the protected class status of a person, having the effect of:

- Physically harming a student or damaging a student's property
- Knowingly placing a student in reasonable fear of physical harm to the student or damage to the student's property
- Creating a hostile educational environment, including interfering with the psychological well-being of the student, and may be based on but not limited to the protected class of the person.
- “Protected class” means a group of persons distinguished, or perceived to distinguished by race, color, religion, gender, sexual orientation, national origin, marital status, familial status, source of income or disability.
- Cyberbullying: The use of any electronic communication device to convey a message in any form (text, image, audio or video) that defames, intimidates, harasses, or is otherwise intended to harm, insult or humiliate another in a deliberate, repeated or hostile and unwanted manner under a person's true or false identity. In addition, any communication of the form, which substantially disrupts or prevents a safe and positive educational environment, may also be considered.
- Discrimination / Harassment: It is the practice of North Clackamas School District not to discriminate against any individual on the bases of race, color, gender, religion, national origin, age, disability, sexual orientation, gender identity or marital status.

Discrimination and / or harassment are behaviors perceived by the receiver as unwelcome actions or works that threaten, violate, or intimidate a person's well-being. It may include, but is not limited to, the use of verbal or practical jokes, unwelcome touching, offensive remarks or put downs, or displays of objects and materials which create an offensive environment, including the defamation of an individual by the initiation of perpetration of knowingly false and / or harmful statements.

**Gang Activity**

**Policy Reference:** JFCE/JFCEA - Clubs/Secret Societies/Gang Activity

The North Clackamas School District takes gang behavior in our schools and at school-sponsored events very seriously. Gang related behavior creates a climate of violence and disruption in our schools that causes students and staff to feel unsafe. It may also put the students engaged in gang behavior at risk of violent attacks by rival gang members. A “gang” is defined as a group that identifies itself through the use of a name, unique appearance or language, including hand signs, the claiming of geographical territory or the espousing of a distinctive belief system that frequently results in criminal activity.

Incidents involving initiations, hazing, harassment, menacing, bullying, teen dating violence, intimidation and/or related activities of such group affiliations are prohibited. Any student wearing, carrying or
displaying club, gang or secret society paraphernalia or exhibiting behavior or gestures which symbolize club, gang or secret society membership, or causing and/or participating in activities which intimidate or affect the attendance of another student will be subject to disciplinary action including suspension and expulsion.

For additional information and materials regarding gang related activity, please visit https://www.nationalgangcenter.gov/

**Threat Assessment**

The North Clackamas School District Student Threat Assessment Team (STAT) was developed to implement a systematic approach to investigate and assess students who are engaged in or exhibiting behaviors implying aggression or violence directed at other people. This system combines the use of investigative information gathering strategies along with questions related to targeted violence. The purpose is to collect data to help make informed decisions about a student’s level of threat towards others, identify potentially dangerous situations, and develop and implement a safety/monitoring/management plan. “Risk Investigation” and “Risk Assessment” are part of the STAT process. If a student/ staff suspects there is a targeted threat of violence, building administration and Public Safety and or law enforcement will be notified. It is not designed for use with students who are suicidal, acting out sexually, or setting fires, unless they are doing so as an act of violence intended to cause serious or lethal injury to others.

**Student Threat Assessment Team (STAT) Goals:**

- To provide a protocol to assess threats of potentially harmful behaviors, risk factors, and action required to support school safety.
- To provide a multi-level system that can mobilize broader community responses and resources to help facilitate the development and implementation of safety monitoring and management plans.
- To develop and maintain a sense of safety among students, teachers, staff, and parents/guardians.

**The system consists of the following levels:**

**Inquiry:** A school administrator consults with another member of the STAT team and determines the need for a Level 1 assessment.

**Level 1:** A school based Student Threat Assessment Team (STAT) consisting of an Administrator, School Resource Officer (SRO), School Counselor/School Psychologist, and one or more designated trained individuals (counselor, case manager, etc.) completes a school based assessment. The team may involve other participants in the Level 1 process and/or request consultation from the district STAT Coordinator.

**Level 2:** If the Level 1 team determines there is need for further assessment, assistance in development of the Student Safety Management Plan, or concerns that cannot be addressed at the Level 1 then the case will be referred to the Level 2 team. The Level 1 team will contact the STAT Coordinator to initiate the referral. The Plan Manager on the Level 1 team will present the case to the Level 2 team. Level 2 Teams are a panel of multi-agency members from the School District, local Law Enforcement, Clackamas County Mental Health, DHS, and Clackamas County Juvenile Department that assists school based STAT members with threat management and identification of resources. Level 2 Teams do not case manage.

**Crisis Response Team**

Emergency/Disaster situations can happen at any time, anywhere. Effective and safe schools are well prepared for any potential crisis or violent act.
On crisis days, it is helpful to have support from persons who have no personal impact due to the crisis—emotionally clean people have clearer thoughts on these days. North Clackamas, Gladstone, and Oregon City School Districts have trained over 80 staff members to support crisis situations in all three districts.

The Crisis Response Team is a team of people who have extensive training in crisis response, who have a shared philosophy, and who have clear tasks or jobs to do on crisis days. At this time, the North Clackamas Crisis Response Team is prepared to support in the following areas of need:

- Media/External communication
- Internal communication with students and staff
- Student Safe Room
- Adult Safe Room
- Staff debriefing facilitation
- Security at both the originating and alternative sites and short-term staff substitution

**Suicide Intervention**

The North Clackamas School District takes suicide concerns very seriously. School staff will follow the Suicide Intervention Protocol for all students identified as being at risk for suicide. Trained suicide screeners (school counselors, school psychologists, and administrators) will interview students of concern to assess risk, notify the parent/guardian immediately, and develop a comprehensive Student Support Plan to ensure safety and ongoing monitoring. Interventions may include additional assessment/evaluation and safety planning through the Clackamas County Crisis Team or the local Emergency Dept. If you have concerns about your student, please contact his/her school counselor to discuss how the school can best provide support. If you need immediate assistance, please call 911 or the 24 hour Clackamas County Crisis Line at 1-888-414-1553.

**Child Abuse**

**Policy Reference:** JHFE/GHFE – Reporting of Suspected Child Abuse of a Child

**Recognizing the different types of child abuse**

- **Emotional abuse** can severely damage a child's mental health or social development. Examples of emotional child abuse include:
  - Constant belittling, shaming, and humiliating a child
  - Calling names and making negative comparisons to others
  - Telling a child he or she is “no good,” "worthless," "bad," or "a mistake"
  - Frequent yelling, threatening, or bullying
  - Ignoring or rejecting a child as punishment, giving him or her the silent treatment
  - Limited physical contact with the child—no hugs, or other signs of affection
  - Exposing the child to violence or the abuse of others, whether it be the abuse of a parent, a sibling, or even a pet

- **Physical abuse** involves physical harm or injury to the child. It may be the result of a deliberate attempt to hurt the child, but not always. It can also result from severe discipline, such as using a belt on a child, or physical punishment that is inappropriate to the child's age or physical condition.

- **Sexual abuse** is an especially complicated form of abuse because of its layers of guilt and shame. It's important to recognize that sexual abuse doesn't always involve body contact. Exposing a child to sexual situations or material is sexually abusive, whether or not touching is involved. Sexual
abuse usually occurs at the hands of someone the child knows and should be able to trust—most often close relatives.

- **Neglect** is a pattern of failing to provide for a child's basic needs, whether it be adequate food, clothing, hygiene, or supervision. Child neglect is not always easy to spot. Sometimes, a parent might become physically or mentally unable to care for a child, such as with a serious injury, untreated depression, or anxiety. Other times, alcohol or drug abuse may seriously impair judgment and the ability to keep a child safe.

**Warning signs of emotional abuse in children**

- Excessively withdrawn, fearful, or anxious about doing something wrong
- Shows extremes in behavior
- Doesn't seem to be attached to the parent or caregiver
- Acts either inappropriately adult or inappropriately infantile

**Warning signs of physical abuse in children**

- Frequent injuries or unexplained bruises, welts, or cuts
- Is always watchful and “on alert,” as if waiting for something bad to happen
- Injuries appear to have a pattern such as marks from a hand or belt
- Shies away from touch, flinches at sudden movements, or seems afraid to go home
- Wears inappropriate clothing to cover up injuries, such as long-sleeved shirts on hot days

**Warning signs of sexual abuse in children**

- Trouble walking or sitting
- Displays knowledge or interest in sexual acts inappropriate to his or her age, or even seductive behavior
- Makes strong efforts to avoid a specific person, without an obvious reason
- Doesn't want to change clothes in front of others or participate in physical activities
- An STD or pregnancy, especially under the age of 14
- Runs away from home

**Warning signs of neglect in children**

- Clothes are ill-fitting, filthy, or inappropriate for the weather
- Hygiene is consistently bad (unbathed, matted and unwashed hair, noticeable body odor)
- Untreated illnesses and physical injuries
- Is frequently unsupervised or left alone or allowed to play in unsafe situations and environments
- Is frequently late or missing from school

**Clackamas County Child Abuse and Neglect Reports: 971-673-7112**

All district employees are mandatory reporters of abuse of a child under ORS Chapter 419B and are subject to this policy and the accompanying administrative regulation. The reporting obligation under this policy and under ORS Chapter 419B requires any district employee who has reasonable cause to believe that any child with whom the employee has come in contact has suffered abuse, as defined in state law, by any adult or by a student with whom the employee is in contact has abused a child, to immediately report to the local law enforcement agency and the Oregon Department of Human Services. The district employee shall also immediately inform his/her administrative supervisor, principal or superintendent. This administrator is required to report any notification by an employee to a human resources administrator if the report involves suspected abuse by any district employees or volunteers.
Section 4: Code of Conduct:

Disciplinary Interventions & Responses to Student Conduct

Introduction

The District expects, encourages, and trusts our students to be safe and make healthy decisions regarding their behavior. When students make poor decisions, there may be interventions and responses to those actions that are age appropriate, consider the student's mental capacity, and to the extent practicable, use approaches that are evident to be effective.

The Code of Conduct outlined in this handbook applies to students at all times while they are on North Clackamas School District property, at any school-sponsored activity, including, but not limited to field trips, and while traveling to and from school or any school sponsored event. The District recognizes that some incidents that occur off school grounds may seriously affect school safety and school climate. In those cases, the District may implement intervention and disciplinary responses based on their impact.

The District shall enforce consistently, fairly, and without bias all student conduct policies, administrative regulations, and school rules.

Successful disciplinary practices have the following characteristics:

1. They are explicit, reasonable, and timely.
2. They are logical, fair, consistent, developmentally appropriate, and considerate of circumstances.
3. They include a variety of prevention and intervention measures.
4. They provide the opportunity for parent/family and student participation.
5. They respond to individual differences among students with insight and sensitivity.
6. They ensure the opportunity for students to obtain an education.
7. They increase the offender's awareness of the impact of his or her behavior and provide an opportunity to take full responsibility for it.
8. They build a sense of community and its capacity for resolving conflict, while maintaining a positive school culture.

Levels of Intervention and Disciplinary Response

Each level of intervention and discipline in this section may include the strategies described below, but is not in any way limited to those strategies or options that are specifically listed. School personnel have the discretion to use interventions and/or discipline that is deemed appropriate to the conduct.

Level 1

Classroom interventions and responses.

These interventions aim to teach correct, alternative behavior so students can learn and demonstrate safe and respectful behavior. Teachers are encouraged to try a variety of teaching and classroom management strategies. Sample actions may include:

- Contact parent via telephone, email, etc.
- Verbal correction
- Reminders and redirection
- Written reflection or apology
- Seat change
- Parent or guardian conference
- Daily progress sheet on behavior
- Loss of classroom privileges
- Teacher or student conference

**School-Based Interventions** — These interventions often involve support staff, both school-based and within the broader community, and aim to engage the student’s support system to ensure successful learning and consistency of interventions and to change the conditions that contribute to the student's inappropriate or disruptive behavior. Sample actions may include:

- Parent or guardian notification
- Mentoring
- Community service to school
- Conflict resolution
- Restorative practice strategies
- Short-term behavioral progress reports
- Referral to community organization

**Level 2**

**Intensive support and administrative staff interventions and responses** — The aim is to correct the behavior by stressing the seriousness of the behavior while keeping the student in school. Appropriate when supports have been put in place but the behavior has continued to negatively affect the learning environment. Sample actions may include:

- Parent or guardian notification
- Restorative practice strategies
- Loss of privileges
- Community service to school
- Conflict resolution
- Peer mediation
- Administrative or administrator designee conference
- Mentoring
- School team meeting (Student, Counselor, School Psychologist, Family, Etc.)

**Level 3**

**Suspension and referral services**

These interventions are appropriate when interventions and supports have been put in place but the behavior is escalating or because of the severity of the behavior. Sample actions may include:

- Parent or guardian notification
- Short-term suspension
- Restorative practice strategies
- Referral to IEP team or 504 team for manifestation determination for students with disabilities
- Revision to IEP or 504 (students with disabilities) as needed
- Referral to substance abuse counseling
- Referral to community organization (e.g., mentoring programs)

**Level 4**

**Extended suspension and referral services** — These interventions focus on maintaining the safety of the school community and ending self-destructive and dangerous behavior. These are appropriate when the student's behavior seriously affects the safety of themselves or others in the school environment. Sample actions may include:

- Parent or guardian notification
● Extended suspension between 8-10 days
● Expulsion Recommendation
● Restorative practice strategies
● Referral to IEP team for manifestation determination for students with disabilities
● Revision to IEP or 504 (students with disabilities) as needed
● Alternative educational placement
● Referral to substance abuse counseling

Student Discipline

Policy Reference: G - Student Discipline

Discipline in the district is based upon a guidance-counseling philosophy designed to produce behavioral changes that will enable students to develop the self-discipline necessary to remain in school and to function successfully in their educational and social environments. The major objectives of the school discipline program are to teach the following fundamental concepts for living:

● Understanding and respect for the rights, dignity and safety of all individuals.
● Understanding and respect for the law, district policies, procedures, rules and regulations.
● Understanding of and respect for public and private property rights.

The Board seeks to assure a school climate which is appropriate for learning and which assures the safety and welfare of personnel and students. The superintendent or designee will develop rules, procedures and standards whereby those students who are disruptive of the educational setting or who endanger the safety of others will receive corrective counseling and/or be subject to disciplinary sanctions that are age appropriate, and to the extent practicable, using approaches that are shown through research to be effective.

The district shall enforce consistently, fairly and without bias all student conduct policies, administrative regulations and school rules.

A student whose conduct or condition is seriously detrimental to the best interests of the school, may be suspended.

Students may be expelled for any of the following circumstances:

● When a student's conduct poses a threat to the health or safety of students or employees;
● When other strategies to change the student's behavior have been ineffective, except that expulsion may not be used to address truancy; or
● When required by law.

The use of out-of-school suspension or expulsion for discipline of a student in the fifth grade or below, is limited to:

● Non-accidental conduct causing serious physical harm to a student or employee;
● When a school administrator determines, based on the administrator’s observation or upon a report from an employee, the student’s conduct poses a threat to the health or safety of students or employees;
● When the suspension or expulsion is required by law.

When an out-of-school suspension is imposed on a student, the district shall take steps to prevent the recurrence of the behavior that led to the out-of-school suspension, and return the student to a classroom setting to minimize the disruption of the student's academic instruction.
Without bias, the district shall consider the age of the student and the student’s past pattern of behavior prior to imposing the suspension or expulsion. The district will ensure careful consideration of the rights and needs of the individual concerned, as well as the best interests of other students and the school program as a whole.

Student Searches

Policy Reference: JFG/JFG-AR – Student Searches

The Board seeks to ensure a learning environment which protects the health, safety and welfare of students and staff. To assist the Board in attaining these goals, district officials may, subject to the requirements below, search a student's person and property, including property assigned by the district for the student’s use. Such searches may be conducted at any time on district property or when the student is under the jurisdiction of the district at school-sponsored activities.

All student searches conducted by the district shall be subject to the following requirements:

- The district official shall have individualized, “reasonable suspicion” based on specific and articulated facts to believe that the student personally poses or is in possession of some item (including, but not limited to drugs, alcohol and weapons) that poses an immediate risk or serious harm to the student, school officials and/or others at the school;
- The search shall be “reasonable in scope.” That is, the measures used are reasonably related to the objectives of the search, the unique features of the official's responsibilities, and the area(s) which could contain the item(s) sought and not excessively intrusive in light of the age, sex, maturity of the student and nature of the infraction.

Inspections of district property assigned to students may be conducted at any time.

District officials may seize any item which is evidence of a violation of law, Board policy, administrative regulation or school rule, or which the possession or use of is prohibited by such law, policy, regulation or rule.

Students may be searched by law enforcement officials on district property or when the student is under the jurisdiction of the district.

Cooperation with Law Enforcement—North Clackamas School District has a strong partnership with both Milwaukie Police Department and Clackamas County Sheriff's Department. As a result, a School Resource Officers work closely with our school administration to build positive relationships with students and families and to create safe learning environments for our students.

Administrators will meet with law enforcement officials annually to review policies, procedures and protocols.

Law enforcement, including school resource officers, investigating a case involving an illegal act in which a student may be involved or about which the student may have information shall contact the administration before questioning a student during school hours or school-sponsored event. Students are afforded the same rights they have outside the school.

Students summoned to the school office for questioning by a law enforcement officer will be asked by the officer if he/she wishes to speak to the officer. The student may accept or refuse and return to class. If the officer has jurisdiction through the court, has a court order or places the student under arrest, the school will release the student to the officer.

The designated school authority will make all reasonable efforts to inform the custodial parents or guardians prior to contact with the student, unless:
• There is substantial reason to believe that such notification would unduly interfere with the investigation;
• The matter pertains to alleged abuse of a child;
• The officer or official already has jurisdiction through the court or prior parental/guardian permission (i.e., assigned juvenile counselor, probation officer or a continuing case); or
• The officer places the student under arrest or takes the student into custody. Unsuccessful efforts to contact the custodial parent or guardian will be documented and placed in the student's file.

Custodial parents or guardians, in situations not covered by paragraph 9.e. above, will be asked if they wish to be present. If so, the conference will be delayed for a reasonable period of time to allow the parents/guardians to be present at the school, or as preferable, arrangements will be made to question the student in his/her home.

The principal or his/her designated administrator will always be present when a student is being questioned except in situations covered by paragraph 9.e. above.

An officer of the law may not take a student from school without one of the following:

• A warrant;
• A court order;
• Custody or arrest; or
• Permission of custodial parent or guardian.

**Denial of Admission to Regular School Program**

**Policy Reference:** [JECA – Admission of Resident Students](#)

The School District will deny admission to its regular school program to a student who is expelled from another school district and who has moved into the North Clackamas School District for the length of the expulsion. The District will provide an alternative learning environment for the student.

**Denial of Admission to Regular School Program and Alternative Education Program for Weapons Violations**

If a resident student or a student transferring into the District is expelled for a weapons violation, pursuant to Section (6) of [ORS 339.250](#), the District will deny that student admission to the school's regular program for at least one calendar year from the date of the expulsion.

In addition, the District will not offer an alternative education program to students expelled for weapons violations pursuant to section (10) of [ORS 339.250](#) for at least one calendar year from the date of the expulsion subject to modifications by the Superintendent on a case-by-case basis.

Special Education Services must be provided during the expulsion period.

**Use of Restraint and/or Seclusion**

**Policy Reference:** [GAB – Use of Restraint and/or Seclusion](#)

Except in the case of an emergency, only staff current in the required training will implement physical restraint or seclusion with a student. In an emergency, physical restraint and or seclusion may also be used by a school administrator, teacher or other school employees as necessary when the student's behavior imposes a reasonable threat of imminent, serious bodily harm to the student or others.

An annual review of the use of physical restraint and seclusion during the preceding school year shall be completed and submitted to the Superintendent of Instruction to ensure compliance with district policies and procedures. A copy of this review can be found online at [NGAB - Use of Restraint and/or Seclusion](#).
Student Conduct Offenses

Discretion will be used at the elementary level for grades 5 and below, consistent with state law as indicated in policy JG.

1 Discretion will be used at the elementary level for grades 5 and below, consistent with state law as indicated in policy JG.
Tobacco Products, Alcohol, Unlawful Drugs, Inhalant Delivery Systems or Mind-Altering Substances

Policy Reference: JFCG/JFCH/JFCI – Use of Tobacco Products, Alcohol, Unlawful Drugs, Inhalant Delivery Systems or Mind-Altering Substances

The use, being under the influence, possession, sale and/or distribution or intent to distribute or sell tobacco products, alcohol, inhalant delivery systems and unlawful drugs and mind-altering substances by students in school or at school-sponsored events is prohibited.

Disciplinary action in such cases may vary by the circumstances of the particular incident and the student's history. The district recognizes its responsibility to assist the chemically dependent student who is making documented efforts to seek treatment for his/her dependency. However, repeated violations of the rules regarding tobacco will eventually be dealt with through restorative and disciplinary procedures.

TOBACCO: A student believed to be in violation of Board policy JFCG/JFCH/JFCI, may be subject to a search (in accordance with Board policy JFG – Student Searches) as tobacco products, inhalant delivery systems or any substance made for the purpose of being smoked, vaporized or aerosolized, may pose an immediate risk or serious harm.

Disciplinary action for the first occurrence will be parental involvement and repeated occurrences will call for a conference with parents of the student and interventions may occur through restorative or disciplinary procedures, including suspension.

ALCOHOL/DRUGS: Issues regarding alcohol and other drugs are subject to disciplinary measures, including suspension. Repeated violations will eventually be dealt with through expulsion procedures.

First Offense (or Repeat of Offense after 12 Months of the First Incident) — The administrator will:

1. Contact parents.
2. Contact law enforcement/juvenile agency, when appropriate.
3. Suspend the student for 10 school days. A reduction of the suspension by 8 school days to a total of 2 school days will occur if the student undergoes a professional assessment for chemical dependency, at the family's expense, by an agency listed on the district's Assessment and Providers List. Verification of an appointment for the assessment must be provided prior to the student returning to school. In addition, the student will follow all treatment recommendations of said agency.

Even if the prescribed assessment indicates no need for agency intervention, the offending student will be subject to additional disciplinary action if a second violation occurs within 12 months of the first offense.

Second Offense Within 12 Months of the First Incident — The administrator will:

1. Contact parents/guardians.
2. Contact law enforcement/juvenile agency, when appropriate.
3. Suspend the student for 10 school days and recommend expulsion.
4. In lieu of expulsion recommendation, a suspension of four days may be administered if the student and his/her parent will agree to obtain a chemical dependency assessment or reassessment and follow all treatment recommendations at parent expense.
5. If the student and parent do not complete the above requirements, an expulsion recommendation will be implemented.
6. At the elementary level, the counselor, in collaboration with the school principal, will:
   - Serve as liaison with outside agency, if appropriate.
• Orchestrate follow-up plans and document progress as required.
• Facilitate communication between the school and student/parents, if appropriate.

**Third Offense within 12 Months of the Second Incident**—A third offense within 12 months of the second incident year by a student will result in a recommendation for expulsion.

**Sale and/or Distribution or Intent to Distribute or Sell Alcohol, Unlawful Drugs and Mind-Altering Substances**

Students who sell and/or distribute or intend to distribute or sell alcohol, unlawful drugs or mind-altering substances to other students or persons on or about district property during school hours or during school-sponsored activities are subject to immediate suspension and may be recommended for expulsion.

Drug Paraphernalia Drug paraphernalia is expressly prohibited on or about school premises or at any school-sponsored activity. Any drug paraphernalia in the possession of a student will be confiscated and the student may be subject to intervention, restorative or disciplinary procedures. Drug paraphernalia with verified drug residue will be handled through possession procedures outlined in this administrative regulation.

**Defiance of Authority**

**Policy Reference:** IFC – Student Conduct and Discipline

Student conduct shall contribute to a productive learning climate. Students shall comply with the district’s policies, administrative regulations, school and classroom written rules, pursue the prescribed course of study, comply with authority of staff and school officials and conduct themselves in an orderly manner during the school day and during district-sponsored activities.

**Fire Setting/Attempted Fire Setting/Fire Play**

Possession of, threatening to use, or the deliberate act of using fire tools or other ignition sources is prohibited. Fire Tools are defined as: any tool that creates a form of heat by creating a flame or spark, including, but not limited to, matches, cigarette lighters, and multipurpose lighters (BBQ). Ignition Sources other than fire tools are defined as any form of heat, which instigate or may be used to propagate fire and includes, but is not limited to, candles, road flares, fuses and fireworks.

**Forgery, Lying or Academic Integrity**

Writing or giving false or misleading information to school officials by forging parent’s, guardian’s, or any other person’s signature on any letter, electronic communication, or other school document; cheating, plagiarizing turning in another person’s papers, projects, computer programs, etc., as the student’s own; and/or any other misrepresentation of the truth.

**Lewd Conduct/Profanity**

Indecent exposure and/or the use of obscenity, profanity, whether oral, written, or gestured. This includes possession, selling, sharing, and distribution of lewd materials. If appropriate, law enforcement may also be notified.

**Loitering (After School Supervision)**

Students are not to be in the school building before or after school hours unless they are supervised by an adult. This policy is implemented to decrease theft, vandalism, and to create a safe school environment. Students who are staying after school should be in their supervised area 30 minutes after school ends. Students who are loitering may be escorted out of the building.
Threats/Menacing/Hate Lists
An intentional, serious threat by word (electronic, telephone, written or spoken) or act (including physical, verbal and/or bullying/threatening), which places another person in fear of imminent serious physical injury (ORS 339.250[3]). This includes, but is not limited to, words, target lists, surveys or conduct directed toward another person. Intimidation, threats and/or menacing are not limited to the protective classes of race, gender, color, religion, national origin, sexual orientation or disability. Violation could result in a referral to an appropriate law enforcement agency.

Trespassing
Being present in unauthorized places or refusing to leave when asked to do so by District personnel and/or designated authority. Entering or remaining unlawfully in School District buildings or on any part of District property or adjacent areas.

Vandalism
Intentionally damaging, defacing (including tagging/graffiti), or destroying property. Vandalism is the willful or malicious destruction or defacement of public or private property. The student and the parent or parents having legal custody of the student may be liable for the amount of the assessed damages not to exceed $5,000 plus costs if legal action is required (ORS 339.270). The student and the parent or parents having legal custody of the student shall be liable for up to $7,500 for the torts committed by their child. (ORS 30.765)

Weapons
Policy Reference: JFC – Weapons - Students
Students shall not bring, possess, conceal or use a weapon on or at district property, including all facilities, grounds, vehicles or at school or district sponsored events.

Students found to have brought, possessed, concealed or used a firearm in violation of this policy or state law shall be expelled for a period of not less than one year and be referred to law enforcement, as appropriate. All other violations of the policy may result in discipline up to and including expulsion and/or referral to law enforcement, as appropriate.

For purposes of this policy, and as defined by state and federal law, weapon includes:
1. “Dangerous weapon” - any weapon, device, instrument, material or substance, which under the circumstances in which it is used, attempted to be used or threatened to be used is readily capable of causing death or serious physical injury;
2. “Deadly weapon” - any instrument, article or substance specifically designed for and presently capable of causing death or serious physical injury;
3. “Firearm” - any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive or the frame or receiver (operating parts of a gun) of any such weapon, any firearm silencer or any destructive device;
4. “Destructive device” - any explosive, incendiary or poison gas component or any combination of parts either designed or intended for use in converting any device into any destructive device or from which a destructive device may be readily assembled. A destructive device does not include any device which is designed primarily or redesigned primarily for use as a signaling, pyrotechnic, line-throwing, safety or similar device.
Weapons may also include, but are not limited to, knives, metal knuckles, straight razors, noxious or irritating gases, poisons or unlawful drugs.

Replicas/look-a-likes of weapons, fireworks and pocket knives are also prohibited by Board policy. Exceptions to the district's replicas/look-a-likes prohibition may be granted only with prior principal approval for certain curriculum or school-related activities.

**Suspension of Student Driving Privileges**

**Policy Reference:** [JHFD - Suspension of Driving Privileges](#)

The superintendent may, under ORS 339.254, make a request to the Oregon Department of Transportation (ODOT) for the suspension of a student's driving privilege or the right to apply for a driving privilege on the basis of conduct as provided below.

1. Bringing a weapon to school
2. Suspended or expelled at least twice for:
   - Assaulting or menacing a District employee or another student
   - Willful damage or injury to District property
   - Use of threats, intimidation, harassment or coercion against a District employee or another student

**Special Education & Section 504: Discipline and Placement in Interim Alternative Educational Setting**

**Policy Reference:** [IGDA/IGEA-AR – Discipline of Students with Disabilities](#)

Special procedures must be followed if a student with a disability is suspended or expelled, and a relationship is shown between the behavior and the disability. If an expulsion hearing is requested, the student will be permitted to have a representative present at the hearing to advise and to present arguments. The representative may be an attorney or parent. The school district's attorney may be present.

The student will be afforded the right to present his/her version of the charges and to introduce evidence by testimony, writings or other exhibits at the expulsion hearing.

Finally, the student will be permitted to be present and to hear the evidence presented by the District.

For students with disabilities, the right to due process is extended through IDEA and Section 504 of the Rehabilitation Act of 1973.

**Disciplinary Removals for up to 10 School Days** — North Clackamas School District may suspend students with disabilities from their current educational placement for up to 10 school days in a school year to the same extent, and with the same notice, as for students without disabilities. The District is not required to provide services to special education students unless services are provided to students without disabilities during this time.

**Disciplinary Removals of More Than 10 School Days** — When a student is removed for disciplinary reasons, it is considered a change of placement if:

- The removal is for more than 10 consecutive school days or;
- The removal is for more than 10 cumulative school days.
- The District will provide notice of disciplinary action for a suspension or an expulsion and provide Notice of Procedural Safeguards to the parent on the date on which the decision is made to remove the student.
Manifestation Determination

A manifestation determination meeting must be held within 10 school days of a decision to change the student's placement because of a violation of a code of student conduct. Relevant members of the IEP team, including the parent, shall review all relevant information to determine:

- If the conduct was caused by or had a direct and substantial relationship to the student's disability;
- or
- If the conduct was the direct result of the District's failure to implement the student's IEP.

Yes: Manifestation: If either of the above two bulleted items is applicable to the student, the conduct shall be determined to be a manifestation of the child's disability. The IEP team shall conduct a functional behavioral assessment, unless the District has already conducted such assessment prior to the behavior that resulted in the change of placement, and implement a behavior intervention plan or, if the student already has a behavior plan, review and modify the behavior intervention plan as necessary to address the behavior. In any case, the District shall return the student to the placement from which the student was removed unless:

- The student is removed to an interim alternative educational setting for no more than 45 school days due to drugs, weapons or the infliction of serious bodily injury; or
- The parent and the District agree to a change of placement; or
- The student's placement is changed based on an IEP team decision.

No: Manifestation: If the IEP team determines that the student's behavior is NOT a manifestation of the disability, the District may proceed with disciplinary action applicable to students without disabilities, in the same manner in which it would apply to students without disabilities. The District will:

- Ensure that the special education and disciplinary records of the student are transmitted for consideration by the school personnel making the final determination regarding disciplinary action.
- Provide the services in an Interim Alternative Educational Setting, determined by the IEP team, that are necessary for the student to continue to participate in the general curriculum, and process toward achieving the goals in the student’s IEP.
- Ensure that the student receives, as appropriate, a functional behavioral assessment, behavior intervention services and modifications that are designed to address the behavior violation so it does not recur.
- Provide prior written notice of change of placement if the student's educational placement changes.

Removal to an Interim Alternative Educational Setting for Drugs, Weapons or the Infliction of Serious Bodily Injury

For a drug or weapon violation, or if the student has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the state or district, a student may be removed from the current educational placement to an interim alternative educational setting for the same amount of time that a student without a disability would be subject to discipline, but NOT for more than 45 school days.

Even if the IEP team determines the student's behavior is a manifestation of the student's disability, the District may continue the student's placement in the Interim Alternative Educational Setting until the end of the 45-school day period. This removal is a change in placement.

The District will apply the definitions in Board Policy IGDA/JIGEA - Discipline of Disabled Students.
“Serious Bodily Injury” is defined as a bodily injury that involves:

- A substantial risk of death;
- Extreme physical pain;
- Protracted and obvious disfigurement; or
- Protracted loss or impairment of the function of a bodily member, organ or mental faculty.

“Drug violation” means the use, possession, sale or solicitation of drugs at school or a school function.

“Drug” means illegal drug or controlled substance, but does not include a substance that is legally possessed or used under the supervision of a licensed health care professional or otherwise legally possessed. It does not include alcohol or tobacco.

“Weapon Violation” means carrying a weapon to school or a school-sponsored function or acquiring a weapon at school.

“Weapon” means a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than 2 1/2” in length.

If a student is removed for a drug or weapon violation, or for inflicting serious bodily injury as defined above, the District will:

- Schedule an IEP meeting which will be convened within 10 school days;
- Provide the parent with notice of disciplinary action for a suspension or expulsion, and provide the parents with Notice of Procedural Safeguards on the date the decision is made to remove the student.
- Provide, as appropriate, a functional behavioral assessment and behavior intervention services and modifications designed to address the behavior violation so it does not re-occur.
- The principal or his/her designee decides whether a student will attend an Interim Alternative Educational Setting.

Within 10 school days, the District will convene an IEP meeting to:

- Determine if the student’s behavior is a manifestation of the student’s disability;
- Review the IEP and revise it, as appropriate; and
- Determine the location of the Interim Alternative Educational Setting which will enable the student to continue to participate in the general curriculum, and enable the student to progress toward achieving the goals in the student’s IEP.
- The District must send the parents prior written notice of the change of placement.

The provisions relating to interim alternative education settings do not apply to students with section 504 plans.

Section 5: School and Community Resources

At the North Clackamas School District, we believe supporting our students and their families is important toward helping our students achieve the best education possible. School counselors and the Family Support Team at Wichita are the best contacts to ask about resources. In addition to counselors, this directory brings together many of the currently available resources in our area.

211 App: With location services enabled on their smartphone, users will be able to find service near them. The app provides users with a category menu from which they can search such topics as temporary
housing, food pantries, parenting programs, parental care, mental health support, foster youth services, and many more. Go to the Apple App Store or Google Play.

**Formal Acknowledgement of North Clackamas School District Student and Family Handbook**

The Student & Family Handbook contains information for parents, guardians and students. Please review the handbook located online at [www.nclack.k12.or.us/studenthandbook](http://www.nclack.k12.or.us/studenthandbook). A copy of the handbook is available upon request at my student’s school office.

The handbook contains information and policies for your review. All students will be held accountable for their behavior and failure to abide by the guidelines for student behavior can result in the discipline outlined in the handbook. Failure to review this handbook does not excuse any individual from complying with the handbook, North Clackamas School District policies, regulations and guidelines.

We are aware that the North Clackamas School District reserves the right at any time to add to the policies, regulations and behavioral standards contained in the handbook.
